B.YOND 37M

PRELIMINARY PROJECT PRESENTATION

# B.YOND

## the sustainable luxury

Best sea view and comfort for the owner and all his guests. Clear separation of crew and guest flows for utmost comfort and privacy. Large garage for tenders and water toys. Long range cruising in total freedom to plan long journeys.

B.Yond 37M encloses a new way of experiencing the sea: thanks to the strict separation of the functions of each deck it offers unprecedented levels of privacy and comfort, while with the diesel-electric propulsion system leads to an effective reduction of consumption for an eco-friendly cruising.

There is a new horizon where sustainability, consciousness and green awareness meet the utmost quality and total comfort of a Benetti yacht: the Sustainable Luxury. And this horizon is not that far, just look a little B.Yond.

Ride the wave of Sustainable Luxury.

## design concept

**S T E F A N O R I G H I N I**

Stefano Righini is not only a leading naval designer with over 5,500 boats that bear his genius, but he is also the architect behind the most innovative revolution of light and space in yacht design over the last 20 years.

Righini's visionary intuitions have driven the change of traditional portholes to expansive hull windows, which flood cabins with natural light and the great spectacle of nature.

He leaves an unforgettable imprint with each yacht layout, continuously working toward the connection of man and sea by true Italian excellence.

### Main technical data

CONSTRUCTION MATERIAL	Steel / Alluminium
LENGTH OVERALL (LOA)	36.5 mt / 119' 9" ft
MAXIMUM BEAM	8.6 mt / 28' 3" ft
MAXIMUM DRAFT	2.5 mt / 8' 2" ft
FULL LOAD DISPLACEMENT	360 tons
GROSS TONNAGE std version (ITC '69)	399 GT
GROSS TONNAGE (incl. garage deck & enclosed veranda)	Equivalent to 460 GT ca.
FUEL CAPACITY	70,000 l / 18,494 US gals
FRESH WATER CAPACITY	6,000 l / 1,585 US gals
MAIN ENGINES	2 x MAN 1029 kW (1400 hp) @ 2300 RPM
MAX SPEED	14 Knots
CLASSIFICATION	R.I.Na (Registro Italiano Navale)
RANGE @ 10 Knots	5,000 Nautical Miles
GENERATORS	2 x Kohler® 100EFODZJ - 100 kW 3 ph / 400 VAC / 50 Hz
BOW THRUSTER	90 kW / 400 VAC / 3 ph / 50 Hz
STABILIZERS	2 x Electrical, underway and at anchor
PROPELLERS	Benetti Design
NAVAL ARCHITECT	Pierluigi Ausonio
NAVAL ARCHITECTURE	Azimut   Benetti S.p.A
DESIGN CONCEPT	Stefano Righini
INTERIOR DESIGN	Benetti Design
ACCOMMODATION FOR OWNER & GUESTS	10/12 Persons 5/6 Cabins
ACCOMMODATION FOR CREW	8 Persons 5 Cabins
TENDERS & TOYS	Main tender 6.5 mt / Crew tender 3.9 mt / 2 x jet ski 3.5 mt

## E-MODE

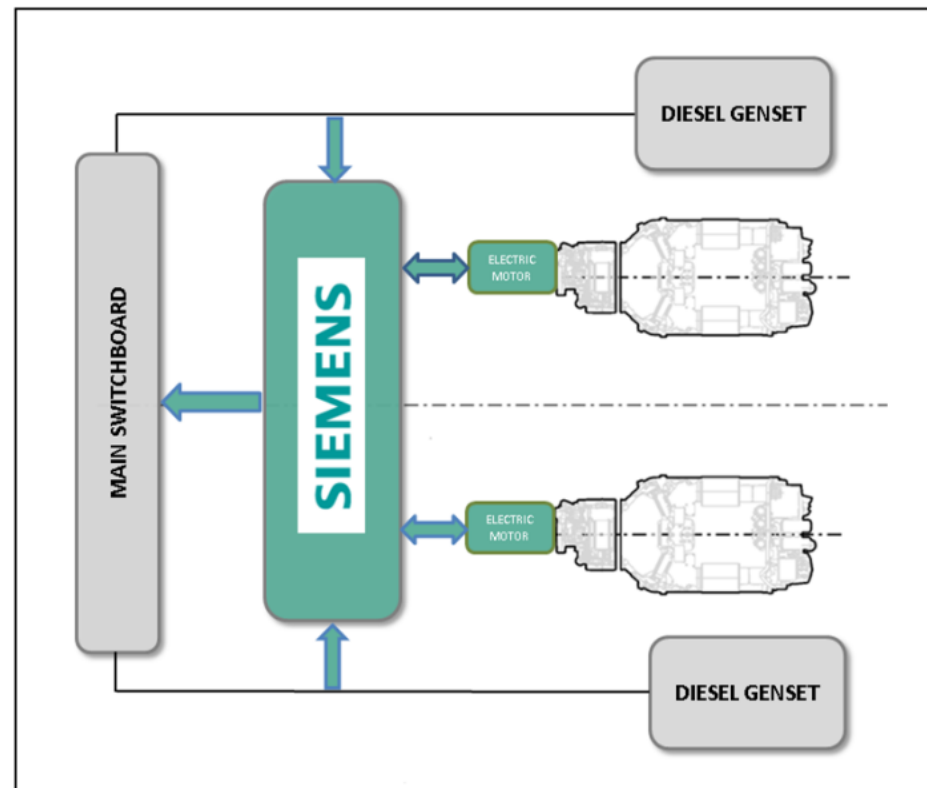

powered by Siemens

### Enhanced Comfort Mode

Diesel engines switched off.  
Gensets supply the electric motors.  
High level of comfort: useful for  
night cruise at low speed.

### Eco Cruise Mode

The yacht sails at “Zero  
emission”: the batteries supply  
energy to the electric motors and  
to the hotel.

### Extended Range Mode

The yacht sails with gensets  
switched off: the electric motors  
work as shaft generators.

### Eco Transfer Mode

The yacht sails with just one  
diesel engine and one genset  
running. Main advantage is  
the 50% reduction of running  
hours: useful for long transfer  
with only crew on board.

### Emergency Mode

In any case of malfunction the system can be easily disconnected.  
On the other side the system guarantees full redundancy of traditional  
power generation.

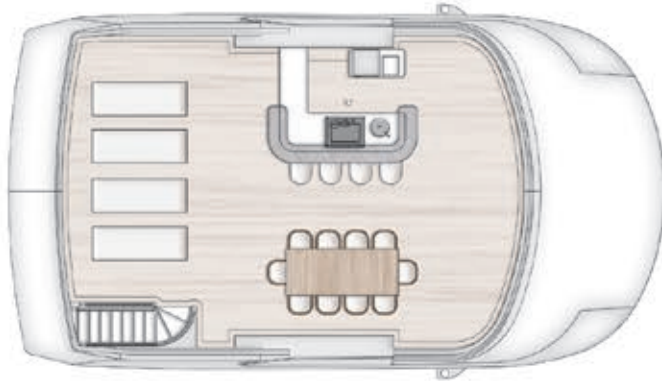

### Features

- Plug-in architecture (easy configuration and low complexity)
- Range extended due to the fuel saving and increase of operating hours of endothermic engines
- Extended service intervals for main engines and for gensets
- Energy peak sharing thanks to the batteries in parallel to gensets
- No black-out in case of extra request of energy thanks to the batteries in parallel to gensets
- Comfort enhanced: Energy supply from the batteries at night time (Hotel mode included)
- Sustainability through Power Management: transitory excess of Energy stored in the batteries and recovered to sail and live in Z.E.M.
